The Future of Life on Earth and Everywhere Else

A recipient of the 2021 Carl Sagan Medal for excellence in public communication by the American Astronomical Society, University of Rochester astrophysicist Dr. Frank is a regular on-air commentator for NPR's *All Thing's Considered* and is also a contributor to the *New York Times* and the *Atlantic*, among other media outlets. His most recent book, *Light of the Stars: Alien Worlds and the Fate of the Earth*, won the 2019 National Honors Society Best Book in Science. On the popular culture front, he was also the science consultant for Marvel's 2016 movie, *Doctor Strange*, starring Benedict Cumberbatch and Tilda Swinton.
